# Postnummerservice Norden AB

## **Address types** - explanation of the different values

Address type is a two letter code where the first character indicates what type of local subdivision applies. Those are as follows:

| | |
|---|---|
| **AT** | Urban areas |
| **AL** | Countryside |
| **AO** | Box addresses |
| **BO** | Box addresses by box service providers other than Posten AB (PostNord AB) |
| **PO** | Other postal delivery providers than Posten AB (PostNord AB) |
| **AS** | Larger companies with their own postal codes. |
| **AR** | Postal units, sorting centers, regional offices etc. |
| **AN** | Administrative post, and, as in Sweden, so called "Tävlingspost". |
| **AU** | Reply mail / "Frisvar" - administrative post |
